Helper tests (no API calls)

These cells test each helper with hand-made data, so they are free and fast to run.

```
# Tests for clean_input (no API call)
print(clean_input(None, "random"))          # expected: random
print(clean_input("", "random"))            # expected: random
print(clean_input("   ", "random"))         # expected: random
print(clean_input("  Italian ", "random"))  # expected: Italian
```
